

# Erica Piper

**What is a song or piece of music that has made an impact on your life? Why?**

I love listening to music and cannot imagine having just one song that encapsulates my life or love. No matter your mood or situation, there is always a song that could be played as a score. I love music's ability to motivate and inspire.

**What brings you joy?**

Watching my children play together is guaranteed to make me smile. When they cuddle with or console each other, my joy is tangible!

**Tell us about an influential person in your life**

My first thought is of my mother, the person who tangibly guided me through the early years of my life shaping me into a woman. She reflected love, kindness, perseverance, forgiveness, and self-sacrifice. As an adult I now realize that she was reflecting the qualities of Christ. Ultimately, I try to model myself after Him.
